

**EFFECTIVE: DECEMBER 15, 2020**

This privacy policy is provided by Irdeto Security, B.V. ("Irdeto"). As used in this privacy policy: (a) "Personal Information" means any information that identifies, relates to, or could reasonably be linked with a person or household; and (b) "Process" means any operation or set of operations performed upon Personal Information or sets of Personal Information, whether or not by automated means, such as collection, recording, organization, structuring, storage, adaptation or alteration, retrieval, consultation, use, disclosure by transmission, dissemination or otherwise making available, alignment or combination, restriction, erasure or destruction.

Irdeto and its affiliates own and operate a solution that enables the management of motorized equipment (e.g., cars, trucks, forklifts, pallet jacks) using digital keys ("Keystone Solution"). Irdeto provides the Keystone Solution on a B2B2C basis, which means that Irdeto provides the Keystone Solution to a company ("Rental Company"), who then uses the Keystone Solution to manage equipment rented by it to end users who themselves may be companies or individuals ("Renters").

Irdeto does not Process Personal Information through this mobile application, on its own behalf. Rather, Irdeto Processes Personal Information only on behalf of Rental Companies.

Each Rental Company may Process Personal Information through this mobile application, as further set forth in such Rental Company's agreement with the applicable Renter.

If a Renter has questions regarding a Rental Company's Processing of Personal Information, then the Renter should contact that Rental Company.
