

KEYSTONE BY IRDETO

FLEET CHALLENGES

Fleet operations inefficiencies

- x Assignment of vehicles
- x Disrupted schedules due to red tag
- x Decentralized dispatch and redundancies

Accountability concerns

- x Managing access is difficult due to multiple personnel

Maintenance management

- x Challenges in managing vehicle maintenance

Complex implementations

- x Lengthy deployments disrupting project timelines

Connectivity challenges

- x Network connection issues

Trailer mispulls

- x Mispulls leading to financial losses of \$15,000+ per incident

EXPERIENCE EXCEPTIONAL SECURITY AND IMPROVED ROI WITH NEXT-LEVEL YARD MANAGEMENT

DIGITAL KEY SOLUTION

Easy vehicle management:

- ✓ Secure digital keys reduce time to road by up to 15%
- ✓ Remote key management for smooth key handoffs
- ✓ Up to 7x payback when eliminating inefficiencies

Accountability

- ✓ Access control with clear audit trails
- ✓ Automatically track yard moves for ELD compliance and reconciliation

Streamlined maintenance

- ✓ Vehicle lockout for red-tagged vehicles
- ✓ Instant access for technicians without key searching

Simple installation

- ✓ Non-destructive installation in under an hour
- ✓ Simple user access with SSO
- ✓ Intuitive user-friendly interface

Local-first

- ✓ No network required once localized to device
- ✓ External keypad for backup entry

Trailer validation

- ✓ Optional feature: Trailer Validation by Irdeto to avoid costly mispulls
